

# Indigo Community: one-week follow-up

---

## Start of Block: Default Question Block

Thank you again for taking part in our research project and helping to improve the care and support that is given to patients during and after their treatment for cancer.

It is important to understand if completing the questionnaire had any good or bad effects on you.

Please answer these short questions we estimate it will take less than 2 minutes to complete these questions.

If you decide you don't want to reply it will not affect your medical care. It will not stop you from being involved in future research if that is what you answered in the questionnaire last week.
